## Work Experience

### PNJ GROUP, SOFTWARE ENGINEER - FULLSTACK

Ho Chi Minh City, Vietnam, June 2025 -  
Present

- Led frontend implementation for promotion flows, ensuring complex discount logic and business rules were accurately reflected across the user journey.
- Improved UI/UX and customer-facing application performance, contributing to 25% growth in user engagement and better conversion.
- Improved API response time by 20% by optimizing database queries and offloading heavy processing to asynchronous workflows using AWS SQS.
- Designed a config-driven frontend system using React Hooks and JSON, enabling dynamic UI updates without redeployment and reducing release overhead.
- **Work highlights:**
- Built a serverless backend architecture using AWS Lambda and API Gateway to support scalable customer-facing applications.
- Applied decoupled service design and async processing to reduce system latency and enhance scalability under load.
- Designed asynchronous, event-driven workflows using AWS SQS to handle background processing and improve system reliability.
- Tech Stacks: Next.js, React.js, AWS Lambda, Docker, AWS CodeBuild, MySQL, TypeScript, JavaScript.

### PNJ GROUP, POWER PLATFORM DEVELOPER INTERN

Ho Chi Minh City, Vietnam, June 2024 -  
April 2025

- Designed, implemented, and deployed business solutions using Power Apps and Power Automate to improve operational efficiency.
- Collaborated with business analysts and stakeholders to gather requirements, ensuring the development of functional applications.
- Updated and integrated cutting-edge features in Power Apps to keep solutions aligned with evolving business needs.

## Education

### University of Information Technology, VNUHCM UIT

B.S. IN INFORMATION SYSTEM

Ho Chi Minh City, Vietnam  
2020 - 2024

- GPA: 8.77/10
- Graduated student majoring in Information System

## Honors & Awards

- **TOEIC 4-Skills Certificate:** Listening & Reading: 910/990, Speaking & Writing: 300/400. 2024

## Skills

- **Programming languages:** JavaScript, TypeScript, SQL, PHP.
- **Technologies:** Next.js, React.js, Laravel, AWS Lambda, Docker, AWS CodeBuild, MySQL, SQL Server.
- **Technical Skills:** Full-stack web development, Serverless application development, RESTful API design and integration, System Design (basic), Database design and query optimization, Docker-based development, Cloud deployment and CI/CD fundamentals.
- **Soft skills:** Agile/Scrum, Problem Solving, Strong Teamwork.
